Outcome: Nationally Recognised Statement of Attainment

Unit Descriptor

- Prepare for emergency situations
- Identify and assess emergency
- Safely confine emergencies
- Use initial response equipment
- Report facility emergency response

Application of this unit

This unit of competency involves the skills and knowledge required to confine small emergencies in a facility and it applies to occupants who are required to have first attack firefighting skills. It includes preparing for emergency situations, identifying and assessing an emergency, safely confining emergencies, using initial response equipment and reporting on the facility's emergency response. Small emergencies in a facility include incidents such as small fires that can be controlled using a fire extinguisher; chemical spills that can be controlled using facility personal protective clothing and equipment and a spill kit.

The unit has been developed to cover the facilities as specified in Australian Standard (AS) 3745 and AS4083. For this unit, as covered by AS3745 and/or AS4083, occupants are people attending a facility on a permanent or temporary basis such as an employee, contractor, student or resident, but not a visitor or patient. A facility is a building, structure or workplace that is, or may be, occupied by people (occupants).
