

SELECT SAFETY TASMANIA

CPCCLDG3001 Licence to Perform Dogging

Dogging consists of two key abilities. These are the slinging techniques employed for moving a load, including the inspection and selection of any lifting equipment, and the skill to direct a crane or hoist operator who is moving a load that is out of their view .

In this course you will learn the skills required to perform slinging techniques, including the selection and inspection of lifting gear and directing of the crane operator. Successful completion of this course will provide you with your WorkSafe high risk dogging ticket.

Overview

- Introduction to the WHS Act 2012, A/S
