

SELECT SAFETY TASMANIA

Combined Licence to Operate a Boom Type EWP (11 metres or more in boom length) and Operate Elevating Work Platform (Scissor/Vertical Lift)

Overview

Boom-type elevating work platform means a telescoping device, hinged device, or articulated device, or any combination of these, used to support a platform on which personnel, equipment and materials may be elevated.

SST will deliver the training through classroom instruction and realistic learning environments. ACE Training's qualified assessors will assess the participants' competence through a series of verbal and written questions and practical demonstrations. A course overview will be provided upon completion of the enrolment process.

Successful students who pass the assessment by our qualified assessor will be awarded a Statement of Attainment for TLILIC0005 Licence to Operate a Boom-Type Elevating Work Platform 11 Metres or More.
