### Course Overview – Fire Warden

This course is designed for the Wardens or Emergency Officers who are required to respond to any type of emergency in the workplace – including fires, bomb threats, chemical incidents and terrorism. These key people are responsible for directing and controlling an emergency response in their designated areas and, ultimately getting people to safety.

Warden/Emergency Officer Skills training is usually performed in conjunction with Chief Warden/Emergency Coordinator Skills Training and evacuation exercises to create a fully trained and competent Emergency Control Organisation (ECO). We recommend that your ECO members take part in these skill sessions at least every 6 months.

### Course Overview – Chief Fire Warden

This nationally recognised course provides participants with the chief skills required to act in the role of Chief Warden during a workplace event / incident. It covers how to make decisions about the employees safety during a workplace emergency and trains participants in how to give instructions for responding to the emergency incident.

The key areas covered by this course include:

- Preparing for workplace emergencies
- Communicating and coordinating workplace emergency procedures
- Controlling the response to emergency reports, signals and warnings
- Coordinating reports and results of the initial emergency response
- Concluding an incident
