Injury Prevention Services Pty Ltd (trading as IPM Consulting Services)
is a leading Australian risk management consultancy.

Course:

Conducting Effective Incident Investigations

Course Summary:

The objective of this course is to increase the participants' capabilities and skills in conducting incident investigations. The course includes an introduction to best practice investigation procedures followed by a practical workshop where participants apply these procedures. Company investigation procedures will be referenced throughout the course.

Course content/detail:

The course will include training in:

- Immediate response after an incident occurs.
- Procedures for notifying key parties including incidents classified as Notifiable Incidents in Tasmanian *Work Health and Safety Regulations 2022*.
- Gathering facts about the incident.
- Determining the basic causes of the incident.
- Identifying root causes of the incident.
- Recommending corrective actions to prevent recurrence.
- Sharing lessons learned with all staff.
- Applying investigation procedures and skills in a mock/practical investigation workshop where attendees are presented with real-world examples of incidents from the construction industry.

Recommended for:

Participants recommended to complete this training include managers, supervisors, HSRs and other employees that assist with the completion of workplace incident investigations.

Scheduled Course Dates:

This course is offered 'on demand' and has variable costs and delivery features (e.g. half and full day options). Contact IPM for further information and to enrol.
