

Low Voltage Rescue and CPR

Unit Code & Title

- UETDRRF004 Perform rescue from a live LV panel
- HLTAID009 Provide cardiopulmonary resuscitation

Duration: 4 hours

1/2 day (

Corporate Course Fee

\$1,495 per day for up to 12 people

Public Course Fee

\$135 per person

Please ensure you thoroughly read this course brochure and the relevant webpage prior to confirming your Enrolment.

Course Overview

The LVR or low voltage rescue training course component of this training covers the skills and knowledge required for a person to be able to carry out a risk assessment of an electrically hazardous situation and confidently perform low voltage rescue procedures without hazard to themselves or others. The CPR component of this training covers both theoretical and practical aspects of providing cardiopulmonary resuscitation in line with the Australian Resuscitation Council (ARC) Guidelines.

The course content includes but is not limited to:

- 🔗 Recognise an emergency situation
- 🔗 Manage risks to the health and safety of self and others
- 🔗 Assess the casualty and recognise the need for CPR
- 🔗 Seek assistance from emergency response services
- 🔗 Display respectful behaviour towards casualty
- 🔗 Operate Automated External Defibrillator (AED) according to manufacturer's Instructions
- 🔗 Accurately convey incident details to emergency response services
- 🔗 Report details of incident to workplace supervisor as appropriate
- 🔗 Maintain confidentiality of records and information in line with statutory and/or organisational policies.

Registered Training Organisation

This course and all related training and assessment services are delivered by Link Resources Training Pty Ltd (RTO Provider Number 45483).

For more information on target audience, self-paced learning, outcomes, payment options, entry requirements and pathway please visit the website on:
