

SELECT SAFETY TASMANIA

Licence to Operate a Slewing Mobile Crane (up to 60 tonnes)

Overview

For those involved in the high-risk construction industry, the 60-Tonne Slewing Mobile Crane Course is an ideal way to advance your career. With all the practical skills you need to operate a slewing mobile crane, you will be able to work in accordance with Australian legislation and safe work procedures.

What Is a Slewing Mobile Crane?

A slewing mobile crane is any mobile crane which has a jib or a boom that can be rotated. The rotating, turn-able section offers greater site versatility. It can be anchored into place while the boom continues to operate in a 360° circle. By comparison, non-slewing cranes don't have rotation joints

Covering the skills required to operate a 60-tonne slewing mobile crane, this course is a certified course, recognised by the Australian government. Students will qualify for a slewing crane operation licence for cranes up to 60 tonnes upon successful completion.

This 60-Tonne Slewing Mobile Crane Course covers essential safety and operational information and skills required to successfully operate this piece of heavy machinery.

criteria:

- Application of relevant mathematical calculations in order to determine radius requirements and relevant lifting gear.
- The ability to apply crane movements such as luffing, catching load swing, using a slew boom/jib, telescoping, raising, and lowering the hoist amongst others.
- Ensuring proper risk assessment such as evaluating lighting, asymmetric and dynamic loads, the suitability of the operating area and more.
- Communication with co-workers through 2-way radios, whistles and hand signals.
- Conducting prestart checks such as looking for fluid leaks, using a logbook and checking the boom wiring harness connection.
- Conduct operational checks by testing the functionality of the crane controls.

SELECT SAFETY TASMANIA

Pre-entry Requirements:

- Long sleeves and long pants
- Appropriate safety footwear
- USI
- Must be 18 years of age minimum

Unit of Competency: Licence to Operate a Slewing Mobile Crane (up to 60 tonnes)

Cost: \$POA inc GST per-person, fully funded by Keystone if eligible.
(Group booking rates available)
