

COURSE NAME	COURSE AUDIENCE	COURSE OVERVIEW & LEARNING OUTCOMES	ASSESSMENT QUESTIONS	CPD POINTS/DURATION
Working in Confined Spaces in the Construction Industry	Builder	<p>Confined spaces pose dangers because they are usually not designed to be areas where people work. Confined spaces often have poor ventilation which allows hazardous atmospheres to quickly develop, especially if the space is small. The hazards are not always obvious and may change from one entry into the confined space to the next.</p> <p>The risks of working in confined spaces can include, loss of consciousness due to the immediate effects of airborne contaminants, and fire or explosion from the ignition of flammable contaminants.</p> <p>This course aims to give you knowledge of your obligations under WHS legislation whilst working in confined spaces and give you an understanding of how to work within confined spaces safely.</p>	<p>A series of online closed questions that are auto marked; questions are directly related to the learning material covered in the course.</p> <p>Participants are required to achieve a pass rate of 80% to successfully complete the course.</p> <p>The course allows up to three (3) attempts to successfully complete all the assessment questions. Participants will be sent a CPD certificate by email upon successful completion of the course materials and assessment process</p>	1 CPD point / 1 Hour
