

Training Course Outline

Confined Space Entry

MSMPER200 - Work in accordance with an issued permit

MSMPER205 - Enter confined space

MSMWS217 - Gas test atmospheres

This course covers the skills and knowledge required for safe entry to confined spaces under and in accordance with a work permit and for maintaining safety while working in the confined space. It aims to ensure that people working under a permit to work understand the system, know the limitations of the permit under which they are working and comply with all the requirements of the permit. This course also covers the skills and knowledge required to test the working atmosphere, using electronic test apparatus, to find out if it is safe for the proposed work.

Within this course candidates will learn how to:

- *Work in accordance with an issued permit by*
 - *Understanding and recognising the need for a permit and learning how to identify the scope of the permit*
 - *Understanding how to prepare for permitted work and understanding the requirements of the permit*
 - *Learning how to seek a variation, extension or suspension of permit and ensuring work complies with permit*
- *Enter and work in a confined space by*
 - *Learning how to assess the confined space for entry*
 - *Understand how to prepare for an emergency and use safety equipment and personal protective equipment*
 - *Understand systems of communication and how to maintain communication with all relevant personnel*
 - *Learning how to monitor the atmosphere and environment within the confined space*
 - *Understanding how to conclude confined space operations in accordance with procedures*
- *Gas test atmospheres by*
 - *Understanding the requirement for testing*
 - *Learning how to prepare for gas testing*
 - *Learning how to undertake gas testing and interpret readings*
 - *Understanding how to monitor and maintain equipment*

To achieve competency the candidate is required to successfully complete a theory and practical assessment and demonstrating sufficient performance and knowledge evidence.

Assessment will occur in workplace operational situations or, where this is not available, in simulated workplace operational situations that replicate workplace conditions.

Course Dates: Scheduled monthly and on request

Cost: \$420.00 per person

Location: Ridgley Training Facility – 2 DeBoer Dr EAST RIDGLEY TAS 7322 (first left on Circular Rd)

Delivery Mode: Internal Delivery

Duration: 1 day starting at 8 am

Outcome: Upon successful completion the candidate will be awarded a Statement of Attainment for MSMPER200 - Work in accordance with an issued permit + MSMPER205 - Enter confined space + MSMWS217 - Gas test atmospheres
