

## THE SAFETY SPECIALISTS

# GAS TEST ATMOSPHERES

MSMWHS217 – Gas Test Atmospheres

This unit is about testing the working atmosphere to determine if it is safe for the proposed work. Testing involves the use of electronic test apparatus.

### Course Objectives

This competency requires the person to interpret readings and take actions based on the interpretation.

### Course Outline

- ✓ Prepare for Gas Testing
- ✓ Test Gas
- ✓ Maintain Equipment

### Assessment

Participants will be assessed via questionnaire and practical demonstration of skills. Participants with literacy/numeracy difficulties or physical conditions should speak with the Trainer to discuss alternative assessment approaches. Applicants will be required to undertake physical activity to meet all the assessment criteria to a satisfactory level.

### Qualification

On successful completion, each participant will be issued with a Statement of Attainment.
