

Course Outline

RIIHAN308F - Load and unload plant

This unit describes the skills and knowledge required to load and unload plant for those working in site-based roles.

Within this course candidates will learn how to:

- + *displaying signage and erecting barriers to isolate work site*
- + *calculating volume and weight of loads*
- + *placing and securing loading and unloading aids*
- + *moving plant onto and off trailer or float, halting at designated position*
- + *securing plant to trailer or float*
- + *slackening securing devices and removing in a safe sequence*
- + *stowing loading aids*

In the course of the above work, the candidate must also:

- + *select, check and use required loading tools and equipment*
- + *select and wear personal protective equipment*
- + *identify and report potential hazards and environmental issues, and assess risks*
- + *apply fault finding techniques*
- + *locate and apply required documentation, policies and procedures*
- + *meet written and verbal reporting requirements*
- + *apply operational safety*
- + *maintain equipment records*

To achieve competency the candidate is required to successfully complete a practical assessment and demonstrating sufficient performance and knowledge evidence and complete a pre-course written assessment.

Training and assessment will occur in workplace operational situations or, where this is not available, in simulated workplace operational situations that replicate workplace conditions.

Course Dates: Scheduled on Request

Cost: \$780.00 per assessment (on your machine) Upon application - per hour rate for training (on your machine) Depending on location, travel costs may be applicable.
