

INTRODUCTION

Link Resources is dedicated to providing expert, professional human and asset protection services and support to organisations. We are committed to understanding the needs of our clients and offering appropriate solutions with high quality service delivery. We believe that effective and proportionate management of systems and the right people can lead to significant business benefits.

LINK RESOURCES POINTS OF DIFFERENCE

- Our team has extensive Heavy Industry experience
- Our flexibility enables us to meet client needs
- We provide the best people for the project at a very competitive price
- We offer end-to-end Asset and Human Resources protection solutions

Established in 2013, Link Resources operates in the Oil & Gas, Mining, Construction, Civil Infrastructure, Manufacturing and Utilities sectors and has a proven track record in exceeding clients expectations.

EDUCATION & TRAINING

Link Resources provides quality workplace health & safety training and assessment throughout Australia. Under the umbrella of the Australian Quality Training Framework (AQTF), Link Resources ensures that courses are in full compliance with all national and state legislative requirements and in accordance with relevant Australian Standards.

With a proven track record helping customers to reduce risk in their workplace, Link Resources excels in providing knowledge and the necessary skills to employees so that they can work safely or respond to incidents/emergency situations that may occur. This is achieved by providing dedicated highly skilled trainers with industry specific qualifications and current hands on experience. Link Resources' training facilities are well equipped and all courses are designed to provide participants with the maximum amount of knowledge and practical application possible under realistic conditions.

Being a market leader; Link Resources has a large and diverse client base throughout Australia and an extensive scope of courses. Link Resources also offers innovative blended learning options through our eLearning business; Risk & Emergency Pty Ltd. Our eLearning is focused on the all-important need for robust underpinning knowledge and volume of learning - this being the very core of sharp and intelligent operators and emergency responders. By offering an intuitive system for those who want to be able to control the pace, time, period and ability to review the content multiple times we are revolutionising the way in which students gain meaningful, well retained education and learning.
