Course Overview

This unit is appropriate for those working in operational roles where they are required to perform work at heights. The course covers the necessary skills and knowledge to safely and competently work safely at heights to industry, workplace health and safety and Australian standards. This course covers:

- Statistics
- Legislation and company procedures
- Risk Management
- Definitions and types working at height activities
- Equipment selection and correct use
- Anchor systems (including selecting anchorage)
- Fall restraint systems
- Fall arrest systems
- Work positioning systems
- Correct use of ladders and ladder safety training
- Rescue equipment and procedures
- Industry case studies

Registered Training Organisation

This course and all related training and assessment services are delivered by Link Resources Training Pty Ltd (RTO Provider Number 45483).

For more information on target audience, self-paced learning, outcomes, payment options, entry requirements and pathway please visit the website on:

<https://link-resources.com.au/courses/work-safely-at-heights/>

Recognition of Prior Learning and Credit Transfer

Recognition of Prior Learning (RPL) is the acknowledgement of a person's current skills and knowledge acquired through previous training, work, or life experience.

Credit Transfer (CT) is the granting of credit to an individual for units of competency / modules previously completed. Please email training@link-resources.com.au or call 07 3036 5249 for a RPL Application Form and RPL Kit or Credit Transfer Application Form.

Equipment & PPE Requirements

Link Resources supply all equipment necessary for all students to undertake training and encourage students to bring along their own relevant equipment, procedures, and other information. For our public courses at our built training facilities trainees must wear suitable clothing (t-shirts, pants, and closed in footwear as a minimum).
