

WORK SAFELY AT HEIGHTS

RIIWH5204E

SGC Safety is proud to train under the KGE Mines Rescue banner for all RTO Courses

Our difference is in our training method which incorporates mock scenarios and trainers with real world experience. Delivery is all face to face and assessment is blended with practical, theory and holistic assessment.

- Legislation, codes of practice and Australian Standards relating to Working at Heights.
- An understanding of Working at Heights hazard identification, safe work procedures and working at heights permits.
- Emergency response planning
- Equipment required and available
- Hierarchy of controls
- Equipment checks
- Ladder use and selection
